

## More revenue, fewer phone calls.

Your practice requires you to answer phone calls, fax medical records, submit refill requests, book appointments, market your business, engage with pet owners year-round and do it all while giving your clients in the office the best customer service experience possible. You're busy, we get it. We're here to help.

### FEATURES

#### Reminders and confirmations

Our effective blend of push notifications, email, text messages and postcards make your door swing and eliminates no-shows.

#### Mobile app branded to your practice

This app prominently features your brand but because we built it with pet owners in mind, you're giving them something of real value.

#### Appointment and refill request

You'll see a significant increase in non-routine appointments due to our high client usage rates and easy-to-use design. Plus, less phone calls make your staff happy.

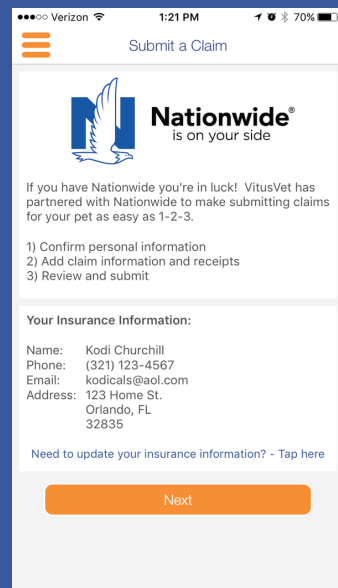

#### VitusConnect text and picture messaging

Reduce phone calls and build trust by sending real-time updates right from your cell phone.

#### Accountability

Our performance dashboard provides you the accountability you're looking for in a partner. Access appointments and refill requests, monitor client communication and review campaign delivery performance, alerts and activity.

### PET INSURANCE CLAIMS

- We partnered with Nationwide Pet Insurance to allow your clients to easily file insurance claims within the VitusVet mobile app.

### GIVE TO YOUR CLIENTS

- 24/7 client access to medical notes, lab results and digital images in a way you control.
- Simplicity and "one-touch" convenience that only a smartphone app can provide.
